

SUBSTANCE ABUSE

EXAM INFORMATION

This exam was developed to enable schools to award credit to students for knowledge equivalent to that learned by students taking the course. This exam tests the understanding of such substances as anabolic steroids, over-the-counter medications, dependency/addiction, societal effects, screening, diagnosis, and neurological factors.

The exam contains 100 questions to be answered in 2 hours.

Form Codes: SP495, SN495, SY495, SZ495

CREDIT RECOMMENDATIONS

The American Council on Education's College Credit Recommendation Service (ACE CREDIT) has evaluated the DSST test development process and content of this exam. It has made the following recommendations:

Area or Course Equivalent: Substance Abuse

Level: Upper-level baccalaureate

Amount of Credit: 3 Semester Hours

Minimum Score: 400

| e. Screening and diagnosis | |
| II. Classification of Drugs | 6% |
| a. DEA schedule | |
| b. Pharmacologic effect | |
| c. Regulations | |
| III. Pharmacological and Neurophysiological Principles | 6% |
| a. Nervous system | |
| b. Actions of drugs | |
| c. Drug interactions | |
| IV. Alcohol | 14% |
| a. History and types | |
| b. Determinants of blood alcohol level | |
| c. Effects | |
| d. Uses and administration | |
| e. Tolerance, withdrawal, and overdose | |
| f. Dependency issues | |
| g. Prevention and treatment | |

V. Anti-Anxiety, Sedative, and Hypnotics	6%
a. History and types	
b. Effects	
c. Uses and administration	
d. Tolerance, withdrawal, and overdose	
e. Dependency issues	
f. Prevention and treatment	
VI. Inhalants	6%
a. History and types	
b. Effects	
c. Tolerance, withdrawal, and overdose	
d. Dependency issues	
e. Prevention and treatment	
f. Uses and administration	
VII. Tobacco and Nicotine	10%
a. History and types	
b. Effects	
c. Uses and administration	
d. Tolerance, withdrawal, and overdose	
e. Dependency issues	
f. Prevention and treatment	
VIII. Psychomotor Stimulants	6%
a. History and types	
b. Effects	
c. Uses and administration	
d. Tolerance, withdrawal, and overdose	
e. Dependency issues	
f. Prevention and treatment	
IX. Opioids	8%
a. History and types	
b. Effects	
c. Uses and administration	
d. Tolerance, withdrawal, and overdose	
e. Dependency issues	
f. Prevention and treatment	
X. Cannabinoids	11%
a. History and types	
b. Effects	
c. Uses and administration	
d. Tolerance, withdrawal, and overdose	
e. Dependency issues	
f. Prevention and treatment	
g. Current trends	
XI. Hallucinogens	4%
a. History and types	
b. Effects	
c. Uses and administration	
d. Tolerance, withdrawal, and overdose	

- XII. Other Drugs of Abuse** **4%**
 - a. Anabolic steroids
 - b. Over-the-counter (OTC) substances
 - c. Synthetic substances
 - d. Club drugs

- XIII. Antipsychotic Drugs** **3%**
 - a. History and types
 - b. Effects
 - c. Uses and administration

- XIV. Antidepressants and Mood Stabilizers** **4%**
 - d. History and types
 - e. Effects
 - f. Uses and administration
 - g. Tolerance and withdrawal

REFERENCES

Below is a list of reference publications that were either used as a reference to create the exam, or were used as textbooks in college courses of the same or similar title at the time the test was developed. You may reference either the current edition of these titles or textbooks currently used at a local college or university for the same class title. It is recommended that you reference more than one textbook on the topics outlined in this fact sheet.

Commented [LT1]: Add space before "or"

You should begin by checking textbook content against the content outline provided before selecting textbooks that cover the test content from which to study.

Sources for study material are suggested but not limited to the following:

1. *Drugs and Society*, 13th Edition, 2018, Hanson, G., Venturelli, P., and Fleckenstein, A., Jones and Bartlett Learning.
2. *Drug, Society and Human Behavior*, 17th Edition, 2018, Hart, C., Ksir and Ray, McGraw-Hill Higher Education.
3. *Drugs Behavior and Modern Society*, 8th Edition, Levinthal, C., Pearson.

SAMPLE QUESTIONS

All test questions are in a multiple-choice format, with one correct answer and three incorrect options. The following are samples of the types of questions that may appear on the exam.

1. Cannabis intoxication can?
 - a. increase the heart rate
 - b. increase mental activity
 - c. cause respiratory collapse
 - d. cause chromosomal damage
2. The drugs posing the most immediate risk of organic brain damage are?
 - a. inhalants
 - b. narcotics
 - c. hallucinogens
 - d. sedative hypnotics
3. The most commonly abused drug in the United State is?
 - a. heroin
 - b. cocaine
 - c. marijuana
 - d. alcohol
4. Endorphins and enkephalins are similar in effect to?
 - a. steroids
 - b. psychedelics
 - c. opiates
 - d. stimulants

5. The metabolism of alcohol takes place primarily in the?
 - a. liver
 - b. kidneys
 - c. brain
 - d. pancreas
