TRANSLATE KNOWLEDGE INTO COLLEGE CREDIT

A COLLEGE DEGREE WITHIN YOUR REACH

Today, there are many educational alternatives to the classroom—you can learn from your job, your reading, your independent study, military training, and special interests you pursue. You may already have learned the subject matter covered by some college-level courses.

The DSST® Program is a nationally recognized testing program that gives you the opportunity to receive college credit for learning acquired outside the traditional college classroom.

DSST exams are created by Prometric, the trusted provider of market leading test development and delivery solutions.

Taking a DSST exam can help you accelerate your path to degree completion while saving you the time it takes to sit through a course, as well as the additional dollars spent on tuition. DSST exams can make earning a degree more feasible.

INTERNET BASED TESTING

All DSST exams are available via Internet-based testing.

INSTITUTIONS OF HIGHER EDUCATION RECOGNIZE DSST EXAMS

DSST exams are accepted for credit by more than 1,900 colleges and universities nationwide, including community colleges, state education systems, private and public institutions; and the number is growing every day. To find out if the college or university of your choice awards credit for passing DSST scores, contact their admissions office, counseling or testing office.

THE DSST PROGRAM IS HERE FOR YOU

Imagine cutting months off your degree completion requirements in practically no time at all. The DSST Program allows you to:

Earn Credit for Previously Learned Knowledge You'll be able to get credit for previously acquired knowledge or experience without taking time off from work to be a full-time student.

Save Time and Money

At less than \$100 for a 3-credit equivalent course, DSST exams are an affordable way to earn college credit for prior learning. It doesn't only cut hundreds or thousands of dollars that you'd have to spend on your college education, but it will also cut on precious college-credit hours. You can then dedicate that time and money into more advanced-level courses, and possibly, graduate in a shorter period of time.

Improve Your Chances for College Admission
Each college has its own admission policies; however,
having passing scores for DSST exams on your
transcript or your college admission portfolio can
provide strong evidence of college-level subject
knowledge.

Gain Confidence Performing At a College Level
Passing a DSST exam proves that you have what it
takes to get a college degree. The feeling of "I can do
this" by passing a DSST exam will give you the
confidence you need to keep going, no matter in what
stage of your college education you are on.

Make Up Missed Courses

If you find that you are a few credits short of earning your degree, you may be able to take one or more DSST exams to fulfill your academic requirements and graduate on time.

APPROVED BY ACE

The American Council on Education's College Credit Recommendation Service (ACE CREDIT) has evaluated and recommended college credit for all 30+DSST exams. ACE, the major coordinating body for all the nation's higher education institutions, seeks to provide leadership and a unifying voice on key higher education issues and to influence public policy through advocacy, research, and program initiatives.

ACE CREDIT connects workplace learning with colleges and universities by helping adults gain access to academic credit at colleges and universities for formal courses and examinations taken in the workplace or other settings outside traditional higher education.

ACE CREDIT provides both a recommended passing score and a recommended number of credits that could be awarded to successful students.

For more information about ACE CREDIT, visit their website at www.acenet.edu/acecredit.

TAKING DSST EXAMINATIONS

WHERE TO TAKE DSST EXAMS

DSST exams are mostly administered at colleges and universities nationwide. Military test takers can also find DSST exams at their local Base Education Office or at a nearby location funded by DANTES. Each location determines the frequency and scheduling of test administrations. Each location can also provide information on the scores required for awarding credit, the number of credit hours awarded, and any courses that can be bypassed with satisfactory scores.

It is important that you contact the institution of your choice as early as possible since credit-awarding policies differ among colleges and universities.

Visit www.getcollegecredit.com to obtain the most current list of participating DSST colleges and universities. If you are unable to locate a test site near you, contact the testing office of an accredited college or university close to you and ask them to contact Prometric's DSST Program to have access to DSST test administrations. After you have selected a college or university that administers DSST exams, you should contact them to schedule your test date.

ON THE DAY OF THE EXAMINATION

You should arrive at least **30 minutes before** your scheduled exam appointment. This allows time for you to sign in and for staff to verify your identification. You must present a valid form of identification before you can test. The identification **must be** governmentissued (e.g., driver's license, state-issued identification card, passport, or military identification card), contain **both** a current photo and your signature and have a name that exactly matches the name used to register for the exam (including designations such as "Jr." and "III"). NOTE: If you fail to present valid identification, you will not be allowed to test.

EXAM FEES

Many exams start at \$80 (cyber \$90). Test centers may require an additional administrative fee. Internet-based exam fees can only be paid with a Visa, MasterCard or American Express credit card.

DANTES helps eligible military members and eligible spouses pursue their educational goals by funding DSST exams (first attempts only) at fully-funded test centers across the country. Review the funding guide in this bulletin to verify eligibility.

EXAM RETAKE POLICY

If you have not achieved a satisfactory score, you may retake the same exam title after the required wait period has passed (currently set at 90 days from your original testing date). If you attempt to take the same exam title before the required wait period, your exam will be invalid and test fees will be forfeited.

OTHER TESTING REGULATIONS

- The use of nonprogrammable calculators (four basic functions only), is permitted for some of the tests.
 Refer to the Auxiliary Testing Materials section of this publication for details.
- Electronic equipment is not permitted in the testing room. This includes cell phones, alarm watches, PDAs, etc. Pocket items—keys, wallet, etc.—must remain in your pocket during testing.

TEST TAKERS WITH DISABILITIES

Prometric makes every effort to provide reasonable testing accommodations that enable all test takers to take examinations on a level playing field. While requests for testing accommodations must be reasonable, approved (based upon appropriate documentation) and scheduled prior to a test taker appearing for an examination, we are committed to making sure you receive the appropriate accommodations to which you are entitled. Please note that accommodations may vary by location. Prometric may also be required to work in conjunction with your testing location to provide approved accommodations. To request a testing accommodation for your exam, please call 1-800-967-1139.

APPEALS

If you need to request a response concerning the exam content, your test score, scheduling or test administration (testing site procedures, equipment, personnel, etc.). Requests for testing accommodations must be reasonable, approved (based upon appropriate documentation) and scheduled prior to a test taker appearing for an examination. Please provide your institution with approved testing accommodation confirmation email prior to scheduling exam.

The Appeal Committee will review your concern and send you a written response within 20 business days of receipt. Faxed appeals will not be accepted, as an original signature is required.

DSST SCORING POLICIES

WEIGHT AND WRONG ANSWERS

All exam questions carry the same weight. Test takers are awarded points for correct answers only and do not lose points for incorrect answers. Instead of being penalized, they are simply not awarded the point for that question.

RECEIVING YOUR SCORE REPORT

For official scores to be sent to the institution of your choice, you must provide the institution's 4-digit DSST code at the time of your examination. Note that some schools require a student to be enrolled before the institution will accept the score report. Due to privacy and security requirements, scores will not be reported over the phone under any circumstance.

To request a score report, please visit our website https://ibt.prometric.com/dsst and enter your username and password to print a copy of your score report. For an official transcript please review the "How to Get Official Transcripts" section of this guide.

Where to Find your Institution's DSST Code
Simply perform a search in our institution database at
www.getcollegecredit.com/institutions/search to
find your school's four-digit DSST code. The code is
located on the left corner of the institution's name. If
your institution is not listed, please email Prometric at
getcollegecredit@prometric.com with the full name
and address of the institution so a code number can
be established.

Internet-Based Exam Score Reporting

To enter the DSST code for online exams fill in the field titled "Institutional Score Report Recipient" with the 4-digit DSST code of the institution that will receive the official scores. If you already have a user profile established, you can edit your institution's DSST code by updating your personal information.

Test takers can receive immediate test results by viewing their unofficial score report at the end of the testing session. Test results can also be viewed at https://ibt.prometric.com/dsst by entering the username and password created when the test was taken.

DANTES-funded military test takers will automatically get an electronic copy of their scores sent to their Transcript Service office.

TESTING IRREGULARITIES

Occasionally, testing irregularities occur that affect a group of test takers. Such problems include, without limitation, administrative errors, defective materials, improper access to test content, as well as other disruptions of test administrations (e.g., natural disasters). Should a group testing irregularity occur, your proctor will submit an Irregularity Report to Prometric. Prometric would then conduct an investigation of the test administration. Based on the information gathered in the investigation, Prometric may decide either to not score the test or to cancel the test score. When it is appropriate to do so, Prometric will arrange to give affected test takers the opportunity to take the test again as soon as possible. Affected test takers will be notified of the reasons for the cancellation and their options for retaking the test.

Prometric reserves the right to cancel any test scores if a test taker engages in misconduct or if there is a testing irregularity.

Reviews of questionable scores are confidential. If it is necessary to cancel scores that have already been reported, an "invalid score report" is produced and the credit-awarding institution is notified.

TEST PREPARATION MATERIALS

PREPARING FORYOUR EXAM

For official scores to be sent to the institution of your choice, you must provide the institution's 4-digit DSST

It is strongly recommended that you check the exam content outline for the exam you want to take, as a first step to prepare for your exam. The exam content outline is included in the Exam Content Fact Sheet section of this publication for each DSST examination.

EXAM CONTENT FACT SHEETS

For each DSST exam, there is an Exam Content Fact Sheet that outlines the topics covered in that exam. The Exam Content Fact Sheet includes a list of recommended references of books that would be useful for review, a list of sample questions, and the number of credits awarded for a passing score as recommended by the American Council on Education (ACE®). Please note that some schools require scores that are higher than the minimum ACE-recommended passing score. It is suggested that you check with your college or university to determine what score they require in order to earn credit.

Exam Content Fact Sheets are detailed in this publication. You can also download individual Exam Content Fact Sheets from DSST's website: www.getcollegecredit.com/exam_fact_sheets.

DSST ONLINE PRACTICE EXAMS

Practice exams in most DSST subjects are available and will enable you to see whether you possess the level of knowledge necessary to pass a specific DSST exam prior to actually taking it.

Although the online DSST practice exam questions do not indicate the full range of difficulty you would find in an actual DSST exam, they will help you assess your knowledge level. They also help you get familiar with the online testing tool as they are built in the same environment as the actual DSST exams.

You can purchase DSST online practice exams at https://ibt.prometric.com/dsst. (You must select "DSST Practice Exams" as the Test Provider or Program).

FREE TEST PREP FOR MILITARY MEMBERS

Peterson's, a Nelnet Company, supplies test preparation for DSST exams free of charge for military members and funded civilians. For more information, visit www.nelnetsolutions.com/dodlibrary.

EXAM CONTENT FACT SHEETS

EXAM DEVELOPMENT AND CREDIT AWARDING

The DSST exams are developed to enable schools to award credit to students for knowledge equivalent to that learned by students taking the course. The school may choose to award college credit to the student based on the achievement of a passing score. The ultimate passing score for each examination is determined by the school. The school is provided with a recommended passing score established by a national committee of college faculty who teach these courses. A national examination council of college faculty was formed to develop each exam. Exams are scored using one of two scoring methods: Norm-Referenced or Criterion-Referenced Standard Setting. The use of one or the other methodology depends on the DSST exam title. DSST norm-referenced scores range from 20 to 80; while criterion-referenced scores range from 200 to 500.

CONTENT OUTLINES

A content outline listing content areas covered in each examination is provided for each DSST exam. The approximate percentage of the examination devoted to each content area is also noted. It is recommended to go over the content outline for the exam you are looking into taking, to ensure that it corresponds to the course for what you want to get college credit.

As you prepare to take a DSST exam, the content outline serves as a map to ensure you review all the material needed before you take your exam. It is strongly recommended that you check the exam content outline for the exam you want to take as a first step to prepare for your examination.

REFERENCE BOOKS

Each exam content fact sheet provided on getcollegecredit.com includes a list of reference publications that were either used as a reference to create the exam, or were being used as textbooks in college courses of the same or similar title at the time the test was developed. Appropriate textbooks for study are not limited to those listed on the exam content fact sheets. If you wish to obtain study resources to prepare for the examination, you may reference either the current edition of those titles or textbooks currently used at a local college or university for the same class title. It is recommended that you reference more than one textbook on the topics outlined in this fact sheet. You should begin by

checking textbook content against the content outline provided before selecting textbooks that cover the test content from which to study. Textbooks may be found at the campus bookstore of a local college or university offering a course on the subject.

Practice exams and other study material for each DSST exam is available online at www.getcollegecredit.com/testprep.

SAMPLE QUESTIONS

All test questions are in a multiple-choice format, with one correct answer and three incorrect options. Sample questions are provided with each exam content fact sheet (included in this publication). You may want to review these samples for the type of questions that may appear on the exam. Other sample questions can be found in the form of Practice Exams by visiting our website at www.getcollegecredit.com.

CREDIT RECOMMENDATIONS

The American Council on Education (ACE) has reviewed and evaluated the DSST test development process for and content of each exam. Each recommendation is noted in the exam content fact sheet. It is advisable that schools develop a consistent policy about awarding credit based on scores from this test and that the policy be reviewed periodically. Prometric will be happy to help schools in this effort.

The ACE provides both a recommended passing score and a recommended number of credits that could be awarded to successful students. Some schools set their own standards for awarding credit and may require a higher score than the ACE recommendation. Students should obtain this information from the institution from which they expect to receive credit.

AUXILIARY TESTING MATERIALS

REFERENCES

No reference materials, papers or study materials are allowed at the testing center. If test takers are found with these or any other aids, they will not be allowed to continue the exam, their answers will not be scored and there are no refunds for the examination.

The Proctor will provide scratch paper for all DSST exams. All scratch paper is considered secure test material and must be collected by the Proctor to be confidentially destroyed or returned along with used test materials.

PRINCIPLES OF PUBLIC SPEAKING – PART TWO: SPEECH RECORDING

Test centers equipped with the ability to administer the Principles of Public Speaking on the IBT platform will provide a headset with microphone for test takers to record their speech into the system.

ELECTRONIC DEVICES

Electronic equipment is not permitted in the testing room. This includes cell phones, PDAs, cameras, alarm wrist watches, tape recorders, etc.

Pocket items—keys, wallet, etc.—must remain in your pocket during testing.

Other personal items—digital watches, outerwear that is not being worn while testing (sweater, jacket, etc.), briefcases, purses, etc.—are not permitted in the testing room.

DSST® PRINCIPLES OF PUBLIC SPEAKING

EXAM INFORMATION

This exam was developed to enable schools to award credit to students for knowledge equivalent to that learned by students taking the course.

The exam consists of two parts. Students must pass both parts of the exam in order to receive credit:

Part 1 – Multiple-Choice: The exam contains 100 questions to be answered in 2 hours. Part 1 consists of multiple-choice questions covering audience analysis; purposes of speeches; structure/organization; content/supporting materials; research; language and style; delivery; communication apprehension; listening and feedback; and criticism and evaluation.

Part 2 – Speech Portion: Part 2 requires the test taker to record an impromptu persuasive speech that will be scored by human raters.

A faculty member who teaches a Public Speaking course at an accredited college or university will grade the speech using the five dimensions listed below. Raters are trained to apply a scoring rubric (guide) uniformly to all speeches.

Structure/Organization: 25%

Delivery: 25%

Content/Supporting Material: 20%

Effect/Persuasive: 20% Language/Style: 10%

Test takers will have 20 minutes to complete Part 2 – Speech Portion (10 minutes to prepare, 5 minutes to record, 5 the recording).minutes to playback

Reasons for automatic failure:

- Timing (speech is shorter than 3 minutes or longer than 5 minutes)
- Editing
- Topic not addressed
- Failure to take a position
- Took several positions
